This map shows the location and M:Number of wells with at least five water-level measurements and at least one year of record. The well data are from the Ground-Water Information Center (GWIC) at the Montana Bureau of Mines and Geology (MBMG). The water-level data are available from the GWIC databases, which are on-line at <http://mbmggwic.mtech.edu/>. The ArcView source files used to compile this map are available upon request from the Ground-Water Information Center at the Montana Bureau of Mines and Geology.
